

Every day, in more than 19 countries around the world, we guide customers through the challenges of their work to improve the comfort, security and energy performance of installations, infrastructure and buildings.

Through the products, solutions, expertise and services We provide, we strive to make the activity of our customers easier, more efficient and more sustainable.

Passionate, dedicated and highly knowledgeable, our people are instrumental in bringing innovative electrification solutions to the field and making energy transition happen.

We believe in bringing positive energy to everything we do.

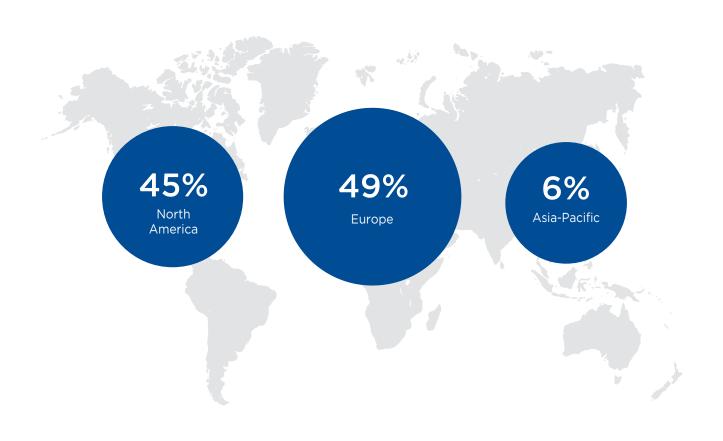

Rexel. Electrifying solutions that make a sustainable future possible.

Rexel, global leader in the professional distribution of electrical products and services

REXEL MISSION

Rexel Mission is to support its customers to be at their best in running their business, by providing a broad range of innovative products and services in the field of industrial automation, energy management, supply chain consolidation and electrical supplies

OUR GLOBAL REACH

19 countries

1950+ branches

27,000 employees

The Rexel Values

Rexel's employees are committed to applying six core values to their everyday work and interactions with the Group's stakeholders

Deliver the best customer experience

We draw inspiration from our customers by understanding their requirements and are always looking for creative paths to help them to create more value.

Join forces for success

We team up with our stakeholders for mutually rewarding partnerships.

Encourage to innovate

We develop new business models and inventive ways to increase value creation.

Engage people to develop their talents

We develop the talent of our teams providing our stakeholders with the most experienced, knowledgeable and skilled Rexel partners.

Trust each other

We hold each other accountable for promises and responsibilities.

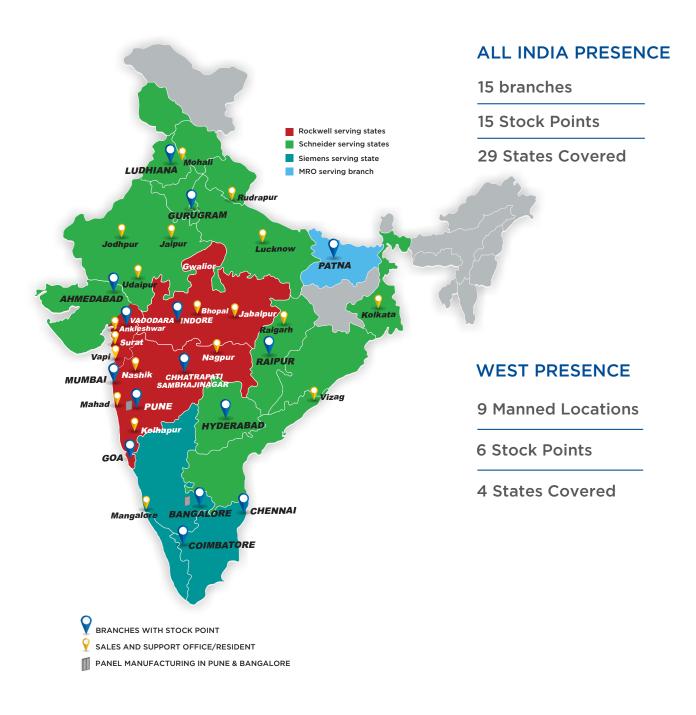

Enjoy making a difference

We act as champions and ambassadors to make Rexel the partner of choice.

Rexel India's Geographical Presence

INDIA AMBITION

Rexel India brings global expertise and aims to be the best technical distributor for customers, suppliers and employees

Our Value Added Services

We strive to offer the best product range, sales expertise and advice, reliable delivery process and flawless technical support

TECHNICAL ADVICE AND APPLICATION SUPPORT

Pre-sales advice:

- · Bill of material optimisation
- Machine/System design support
- · Training to your team, product demo
- Energy Audits, Light consumption, Payback estimation
- Onsite trial support
- · Proof of Concept

Post-sales support:

- Electrical Panel assembly & site commissioning
- Commissioning support for all technical products
- Troubleshoot support on Call and on-site (pan India, 7/7)

LOGISTICS & PARTS MANAGEMENT

- 15 Stocking points across India
- Availability of right product at the right time
- ~ 8000 SKUs in stock
- · Efficient and reliable deliveries
- Import Capabilities

MRO CONSOLIDATION

- Overall MRO contracts (electrical and more)
- · CAPEX optimisation
- Total Cost of Ownership (TCO) optimisation

Industrial Automation

Our Industrial Automation Solutions enhance productivity, reduce energy consumption with total cost of ownership, by offering cutting edge technologies, innovative & optimized solutions.

TECHNICAL ADVICE

- · BOM Optimization
- Proof of Concept
- Energy/Lighting Audits with payback estimation
- Training/Demo

CONCEPTION

- · Tailor-made solutions from conceptualizing, designing & implementing
- product selection
- Machine/System Design

SERVICES

- Efficient and reliable logistics services
- · Embedded Engineers
- Warranty, Extended Warranty
- · Commissioning support

OPERATIONS SUPPORT

 Wide range of services to ensure operations such as training, maintenance, inventory management, performance monitoring

SPECIALTY

- A solid expertise with specialized, dedicated staff, trained and accredited by world's leading manufacturers
- A broad range of high-quality products meeting safety standards compliant with regulations
- Cost-effective solution
- A TCO approach reducing supply chain costs via a single point of supply
- Personalized assistance including training and commissioning support, warranties and repairs, on-site technical support, spares management etc.

Rockwell Automation's extensive product portfolio and services and support capabilities are designed to improve your processes through every stage of your manufacturing cycle — from design and installation through operation and maintenance.

Programmable Controllers

ProSoft Technology specializes in the development of communication solutions compatible with the large automation suppliers' controllers such as Rockwell Automation and Schneider Electric. The primary focus is to provide connectivity solutions that link dissimilar automation products. ProSoft Technology provides field proven connectivity and communication solutions that bridge between various automation products as seamlessly as if they were all from the same supplier.

Engineering services provided by ProSoft Technology expertise fall into four basic categories:

- Protocol development for Rockwell Automation
- Protocol development for Schneider-Electric
- Application customization for industrial Pcs
- Wireless networking applications

Wireless Solutions for Industrial Automation

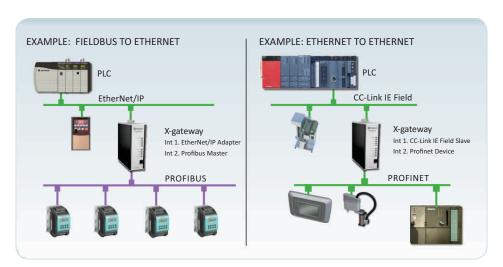

Thousands of industrial plants worldwide are operating more efficiently today with ProSoft Technology's integrated wireless solutions. From simple monitoring systems to high-speed control, ProSoft Technology's knowledge and expertise guarantees a reliable and secure industrial wireless network.

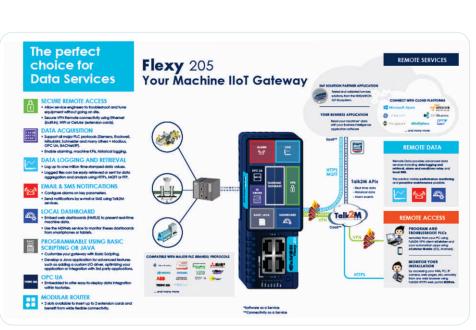

The Anybus X-gateway family consists of over 200 proven, robust and ready-to-use gateways aimed to connect almost every possible combination of two industrial networks.

Anybus X-gateway allows system integrators to easily transfer I/O data between devices on two different PLC systems and networks, enabling a consistent information flow throughout the entire plant.

eWON Cosy

The eWON Cosy (COmmunication made eaSY) is an industrial VPN router designed to offer easy and fully secure remote access, across the Internet, to machines and installations on customer sites or in the field. With eWON Cosy, Machines Builders, OEMs and System Integrators can troubleshoot machines remotely without going on site, drastically reducing support costs.

is now part of

Schaffner is uniquely able to offer the world's most comprehensive range of EMC/EMI products.

Sophisticated solutions - with full engineering support - help to meet European and international compliance standards and to improve the reliability and safety of electric and electronic equipment.

Schaffner's range of EMC solutions

- PCB EMC/EMI filters
- IEC inlet filters/Power entry modules
- DC filters
- Single-phase EMC/EMI filters
- Three-phase EMC/EMI filters
- Three-phase and neutral line EMC/EMI filters
- Open frame EMC/EMI filters
- EMC/EMI chokes

Harmonic Filters

Schaffner is uniquely able to offer both passive harmonic filters and active harmonic filters for the efficient mitigation of mains harmonics, worldwide. Innovative filter technology, a user-friendly design, as well as sophisticated technical support enable our customers to achieve their individual Power Quality goals quickly and cost effectively.

POSITAL is a manufacturer of sensors for motion control and safety assurance systems. The company's products, which include rotary encoders, inclinometers and linear position sensors, are used in a wide range of settings, from manufacturing to mining, agriculture to energy. POSITAL is a member of the international FRABA Group. FRABA Group is a market-leading enterprise that makes use of advanced product design and manufacturing process to ensure that its customers enjoy the benefits of technology leadership, choice, product quality and competitive prices.

Secure Power Division Commercial & Industrial

- Access to electrical channels
- Portfolio of 3 Phase and 1 Phase UPS, Cooling System, Micro DC
- Access to industrial through segment teams & National Sales
- General upside in share
- Digital services and software capabilities

Three Phase UPS Portfolio

- Easy UPS 3S 10-40kVA
- Easy UPs 3M 60-200kVA
- Easy UPs 3L 250-600kVA

Optimum

- Galaxy VS 20-150kVA
- Galaxy VM 160-200kVA
- Galaxy VL 200-500kVA
- Galaxy VX 500-1500kVA

Distribution

- Modular PDU
- Configurable PDU
- Customised PDU
- Static Transfer Switches

Single Phase UPS Portfolio

Back UPS

- Back-UPS BE (700-800VA)
- Back-UPS BR (1000-1500VA)
- Back-UPS BX (600-1100VA)
- Back-UPS BVX (700-900-1200-1600-2200VA)

Smart UPS Online

- Smart UPS SRC (1-10kVA)
- Smart UPS SRTG (15-20kVA)
- Smart UPS SRV (1-20kVA)

Micro Data Center C-Series 43U for commercial environments.

43U packages power, cooling, security and monitoring into a single enclosure that eliminates the need for an IT room, deploys quickly.

It also adds new capabilities such as intelligent eco cooling, local monitoring, and optional fire suppression.

Vishay Intertechnology, Inc., a Fortune 1000 Company listed on the NYSE (VSH), is one of the world's largest manufacturers of discrete semiconductors (diodes, rectifiers, MOSFETs, optoelectronics, and selected ICs) and passive electronic components (resistors, inductors, and capacitors). Vishay is one of the few manufacturers to offer a complete range of Power Capacitors, Reactors, Power Factor Controllers and have more than 70 years experience.

Heavy Duty, Gas Filled Capacitors

- Dielectric: MKP/MPP Metallised polypropylene
- Protection:
 - Self healing
 - Tear-off fuse
- Termination: IP00, Ip20

Super Heavy Duty, Oil Filled Capacitors

Range

- Voltage Range (V): 440, 480, 525, 660/690 & up to 1000 V; at 50/60Hz,
- Output: 1kVAr 33.3kVAr.
- Shape/Size: Dia. 64/84/116/136 MM
- Height: 130 to 340MM

Power Factor Controllers

Features

- Supply Voltage: 90V 300VAC
- Measuring Voltage: 90V -690VAC
- Operating Voltage: 230V ±10%
- Current selection: 1A/5Amps
- · Automatic Self-Setting
- Over Temp Switch Off
- Constant Display of actual PF & energized steps
- Display of PF, P, Q and S
- Optimized Switching Performance
- Alarm Functions
- Protection Class: IP52/54
- Interface optional

LVAC Series Reactors

Key Benefits

- Avoidance of Resonance conditions
- Tuned & Detuned Harmonic filters
- Reduction of Harmonic Distortion (Network clearing)

Salient Features

- High Harmonic loading capability
- High Linearity
- Low Noise
- Low Losses
- Convenient Mounting
- Long Life Time

Technical Data:

- Standards : IEC60289/VDE 0532/EN61558/IS:5553
- De-tuning Factor p [%]: 7, 14, 5.67
- Linearity: 180%, 200%
- Effective Filter o/p Qc[kVAr]: 5 to100
- Rated voltage VR [V]: 440
- Rated Frequency [Hz]=50
- Ambient temperature/insulation class: 40°C/Class-F
- Temperature protection (NC): Yes
- Duty Cycle (Irms): 100%
- Class of protection: IPOO

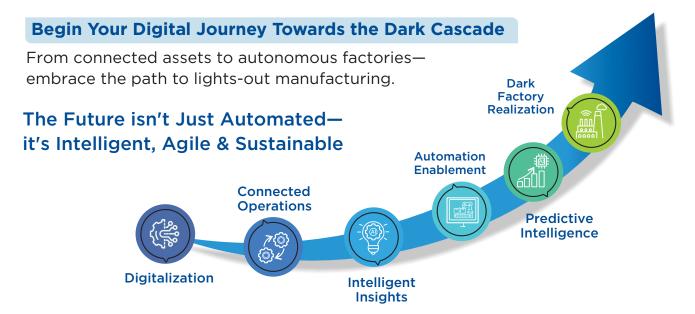

Powering Industry 5.0: Where Digital Intelligence Meets Human Ingenuity

Rexel & ITHENA are at the forefront of the digital industrial revolution, delivering breakthrough solutions that drive efficiency, sustainability, and intelligence. We empower End Users and OEMs with a future-ready ecosystem—uniting AI, IoT, and automation to turn vision into reality.

For End Users Transformative Operations	For OEMs Next-Level Service Intelligence
Dark Factory Enablement: Achieve self-running operations with Al-driven automation & robotics.	Smart Asset Monitoring: Live tracking, smart alerts, and OEE insights to boost performance, availability, and quality.
Total Plant Visibility: Real-time insights through connected sensors, IoT, and digital twins.	Al-Powered Serviceability: From Scheduled to Predictive Maintenance. Minimize downtime with RCA and Al-driven diagnostics for proactive failure prevention.
Smart Energy Optimization: Intelligent monitoring of W.A.G.E.S for reduced costs and greener manufacturing.	Seamless System Connectivity: Unified data flow from shop floor to top floor.
Predictive Maintenance: Al-powered analytics to prevent failures and minimize downtime.	Gen Al-powered Bot: Quick query resolution, paving the way for Agentic Al-driven auto servicing.

Your Dark Cascade Starts Here. Join the Industry 5.0 Revolution

Every step—from digitization to dark factory—is powered by Rexel & ITHENA.

Enable autonomy | Amplify agility | Embrace sustainability

Supply Chain Consolidation

We help reduce your supply chain TCO by providing a broad range of technical supplies to your sites.

Our MRO solution is a customised solution developed for Key Account customers, offering parts supply for the maintenance of mechanical and electrical devices

- Consolidation & monitoring of our customer's supply chain
- OPEX optimization and savings through monthly reporting

PRE-ANALYSIS

- Feasibility
- · Product data cleansing
- TCO offer

PROGRAM MANAGEMENT SET-UP

- Vendor managed inventory on site consignment
- Global & local sourcing

CONTINIOUS IMPROVEMENT FOR SAVINGS

 Tracking & monitoring for identification of additional sources of savings

MRO OFFERINGS

- Power distribution
- Lighting

- Electrical cables
- Enclosures
- Automation & Drives
- Field instruments

MRO Line Card

Power distribution

- ACB
- Enclosures
- MCCB, MCB
- Capacitors

Electrical cables & fittings

- Boxes, glands, MCT, Ties, connectors
- EEX & non EX lighting
- Markers, tag, labels
- Cables harnesses and wires
- Grounding, cable cleats, conducts and struts
- · Switches and sockets

PPE

- Masks
- Ear plugs
- Gloves
- Glasses
- Safety shoes

Tooling & consumables

- · Hand tools
- · Power tools
- Portable instruments
- Tools accessories

Instrumentation

- Probes
- Recorders
- Fittings

Fasteners

- DIN, ASTM
- Various coating
- Made to print (@MOQ)

Pipes and mechanical fittings

Bearings

Electrical motors

- AC
- Low voltage
- DC
- ABB
- China OEM

Lighting

Better energy performance by implementing innovative & turnkey lighting solutions

For industrial, commercial and residential markets, Rexel offers lighting solutions for both construction and retrofit projects

- · Effective solutions that optimize on-site energy consumption
- · Control ROI to assess the impact of selected solutions in terms of energy and cost savings

💢 DESIGN

Lighting design support to brighten your business outlook

We are available to assist with:

- Developing Industrial lighting plans
- Recommending product selection
- Calculating payback periods
- Consulting to improve energy efficiency

PRODUCT

Right product for any lighting solution:

- A range of branded products to deliver best value
- Product to meet special requirements
- We offer the best value for your money through our scale and logistics.

PROJECT

Processes and network to provide high quality service throughout the project

- Network of 16 branches nationwide, which means you get local service no matter where you are
- Over 12 lighting specialists nationwide, which means there isn't a project or place we cannot cover
- Installation, periodic cleaning and maintenance of light fittings of entire plant
- Successful execution of Green Field Lighting Projects managed by the team.

Panel Packaged Solutions

We engineer, design and build Electrical and Automation panels as per customers need.

Testing FacilityComplete facility of electrical testing i.e.

- Insulation Resistance test
- HV Test
- · Cold testing of PLC I/O signals
- Functional test of PLC panels

Tools and Equipment's

- Power Tools
- · Pillar Drill Machine, Bench grinder
- Bus Bar bending machine
- Torque Drill machine
- · Rittal Hand tool kits
- Megger, HV Tester
- DC Power source,
- · Multi meters, Source meters
